Professional Summary

Innovative and results-driven Software Engineer with over 5 years of experience in designing, developing, and implementing software solutions. Proficient in multiple programming languages and development frameworks with a strong background in agile methodologies. Adept at collaborating with cross-functional teams to deliver high-quality products and drive continuous improvement. Passionate about leveraging technology to solve complex problems and create value.

Technical Skills

- **Languages:** Python, JavaScript, Java, C#, C++
- **Frameworks/Libraries:** React, Angular, Node.js, Django, Flask, .NET
- **Tools:** Git, Docker, Jenkins, JIRA, VS Code, IntelliJ IDEA
- **Databases:** MySQL, PostgreSQL, MongoDB, SQLite
- **Cloud Platforms:** AWS, Azure, Google Cloud Platform
- **Methodologies:** Agile, Scrum, TDD, Continuous Integration/Continuous Deployment (CI/CD)

Professional Experience

Software Engineer
Tech Solutions Inc. – San Francisco, CA
June 2021 – Present

- Developed and maintained web applications using React and Node.js, improving user engagement by 25%.
- Led the migration of legacy systems to a microservices architecture, reducing deployment times by 40%.
- Collaborated with product managers and designers to define project requirements and deliver solutions on time.
- Implemented automated testing and CI/CD pipelines, resulting in a 30% reduction in deployment errors.
- Mentored junior developers, fostering a collaborative and productive team environment.

Junior Software Engineer
Innovatech Ltd. – Austin, TX
July 2018 – May 2021

- Contributed to the development of client-server applications using Java and Spring Boot, enhancing performance by 20%.
- Assisted in designing RESTful APIs and integrating third-party services, streamlining data exchange processes.
- Participated in code reviews and provided constructive feedback to ensure code quality and adherence to best practices.
- Created detailed documentation and user manuals to facilitate better understanding and usage of software products.

Education

Bachelor of Science in Computer Science
University of Texas at Austin – Austin, TX
Graduated May 2018

- Relevant coursework: Data Structures, Algorithms, Database Systems, Software Engineering, Web Development

Certifications

- **Certified ScrumMaster (CSM)** – Scrum Alliance – *2022*
- **AWS Certified Solutions Architect** – Amazon Web Services – *2021*

Projects

Personal Finance Tracker – *Lead Developer*
Description: Developed a personal finance tracking application using React and Node.js. Enabled users to manage their expenses and track budget effectively. Achieved 4.8/5 user rating on app stores.

E-Commerce Platform – *Full-Stack Developer*
Description: Built a fully functional e-commerce platform with Angular frontend and Django backend. Integrated payment gateways and inventory management, increasing sales by 15% for the client.

Professional Affiliations

- Member of Association for Computing Machinery (ACM)
- Contributor to the Open Source Project "CoolTechLib"

Additional Information

- **Languages:** Fluent in English and Spanish
- **Volunteer Experience:** Volunteered as a coding mentor for local high school students through Code.org
